

Technology change the future of our city
——ANXIN acquires certificate of technology achievement registration

ISD(Intelligent Surveillance Disaster Alert and Rescue Coordination System) is developed independently by Shenzhen ANXIN Digital Development Co., Ltd. It's a comprehensive computer information system which can provide a combination of remote control、command and scheduling of emergency rescue、aid decision making in Safety protection. With the application of ISD, more than 13 thousand point was monitored by ISD within 9 provinces and 30 cities until 2011. In Oct. 23, 2012, ANXIN acquires the certification of technology achievement registration which was issued by Shenzhen science and technology innovation committee. The certification is a mark for Anxin ISD system upward on a higher step on the safety protection industry.
