

Construct Safe Cities, Promote Citizens' Sense of Belongings

A Porsche car crashed a taxi in Shenzhen at 2:30 a.m. May 8th, 2013. Then, the Porsche driver got out of the car angrily, and taught him a lesson seriously. Herein, fed up with his behavior, a few hundreds of taxi drivers gathered at the accident site, hit the Porsche car drive in return, and destroy his car. While further investigating this case, the police man official asserted that the Porsche driver was involved in drunken driving and running the red light.

This case is actually supposed to be like story pilot of TV series, which is anyway very worthy of our considering what it reveals in reality. How did such an incredible case exactly happen? In fact, we may assume that as the crash accident occurred, the police men could get to know the peril and arrived at the scene soon, so as to avoid the fight incidents. Indeed, how can policemen do to receive the traffic accident message in a short time?

Here is an effective solution for people to take. Smart IP cameras with intelligent video analysis function could be installed in the major traffic crossroads to keep all dangers conditions under control. Within the particular rule setting, the intelligent video analysis system could send real-alerting to the surveillance administration center as the crash accident happens on the crossroad while subsequent public security cases. Herein, some people would doubt that the monitoring personnel might judge it to be a little vehicle collision accident and then forget it. Anyhow, the intelligent video analysis system could effectively identify that large crowd's gathering belongs to illegal action, which definitely results in the alerting. Thus, the policemen would immediately take measures to solve this problem as they see the gathering of a great number of taxies and persons.

However, citizens need both family and friends' love and the public safety, which bring them with sense of belongings. Thus, the construction of safe city prevents every people from the dangerous cases and injury, while the social sense of belongs

地址：香港灣仔港灣道 25 號海港中心 20 樓 2001-2005 室 電話：00852-2343 8702 傳真：00852-2344 8917
