

Anxin-China ISD Clears up the Incentives of Industrial Accidents

At 7: 40 a.m. July, 30th, an industrial accident suddenly happened in an oxygen plant factory of New Steel Iron& Steel Co., Ltd in Wen'an county, with 7 dead and 1injured, reported people.com.cn. This company actually concealed the truthful case, which was confirmed to break the local laws and rules. Thus, Langfang Municipal government held an urgent working conerence on safety produciton on July 2nd, and made a notice of criticism as to such a concealing report. The special investigation group went into the the on-site for a further survey on July 5th, while the factory was shut down that day. Anyway, according to informed sources, the accdient occurred in the oxygen plant workshop for the reason that the oxygen plat equipments were not firmly closed.

Now, we can see clearly that such a case is directly led by human errors which could be essentially avoidable. And there are obvious incentives that the comapany doesn't execute related measures properly, with lacking of fundamental safety surveillance and potential dangers control. Herein, Anxin-China considers the overall situation for all residents and workers. Therefore, Anxin-China ISD system is particaulry develeoped to ensure safety proudction surveillance. However, at present, this high-tech system has been successfully applied in Administration of work safety in Hunan, Yunnan, Jilin, Chongqing and et al. Specifically, the customized irmporvement solutions are approved to regulate industrail personnel to behave normally, with the aim at both safety surveillance and precautions. It's believed that disater cannot be controlled anytime while the Anxin-China's ISD system can effectivley reduce the proability of risk events.

However, Anxin-China is eager to realize sincere cooperation with adminisitation of work safety at all levels, with improving the safety production management and preventing the occurrence of various safety accidents. Thust, tragedies can be largely reduced.
