**School-enterprise Cooperation Strengthens China's Security Industry**  
**-For Recording the Mar. 12<sup>th</sup> Signing Ceremony**  
**of Shenyang University of Chemical Technology**

Shenzhen, China-Mar. 12th, 2013. Now, here came the spring with beautiful sunshine and mild atmosphere in Shenzhen, herein, Anxin-China Holdings Limited just meet two northern clients, both the party secretary M. Bai Wei and the School-operated director M. Yang Xueyin from Shenyang University of Chemical Technology. Specifically, both the board chairman M. Liu Zhongkui and the executive director M. Lin Supeng from Anxin-China, treated the above honored guests in the conference room with warm reception.

On the morning of this day, M. Bai et al visited the Shenzhen headquarter of Anxin-China in the company of Chairman Liu, and then made a sincere communication with young intelligent engineers in the R&D department locally. Besides, for them, M. Liu did not only make a brief introduction about the real-time analog demonstration of the latest popular high-technology iVAS system, but presented a detailed conditions about the technological analysis and market distribution of both ISD and iVAS.

Finally, two sides, Liu standing for Anxin-China and Bai in the name of Shenyang University of Chemical Technology, signed the industry-university-research cooperation agreement between Anxin-China Holdings Limited and Shenyang University of Chemical Technology.

Herein, Bai Stated that, dating back to Dec. 2012, Shenyang University of Chemical Technology received the project proposal for industry-university-research cooperation between university and enterprise from Anxin-China Holdings Limited, and then confirmed the truth that this company's cultural essence highly matched the school motto of Shenyang University of Chemical Technology while the cooperation model contained in the documents received

appreciation from the school leaders; therefore, the school authority became more and more interested of this precious opportunity, and decided to spare no effort to accomplish this successful assignment of cooperation agreement also with the coordination of Anxin-China. In this agreement, to be specific, Shenyang University of Chemical Technology compromised to assist Anxin-China in the improvement of ISD technology R&D service and to propose three R&D achievements, when Anxin-China provided the previous one with enough R&D budgets and also brought the outstanding graduates from Shenyang University of Chemical Technology with prior job offers.

Therewith, Chairman Liu, standing for Anxin-China, thanked Shenyang University of Chemical Technology for its big value on this cooperation, as M. Bai came to Shenzhen for signing the agreement with traveling a long distance. Therefore, it is believed that Anxin-China ISD and the security industry will become stronger and stronger in the long run, for the reason that a great number of young intelligent elites would like to get adapted to this area with presenting excellent achievements.

Since more than six decades after its foundation, Shenyang University of Chemical Technology, as one important technological innovation base of Liaoning province, positively initiated the self-innovation and provided high-quality service towards several particular state development projects, such as fastening the high-tech industrialization, high-tech improving traditional industries and developing the north-east old industry base et al. In recent years, it has also carried lots of state technology development plan projects, including “863”project,”973”project, major scientific special project from Science department, and other 50 state nature& science fund project, as well as more than 600 provincial and enterprise R&D projects.
