

## Leaders from Shandong Quhu Merchants Group Visited Anxin-China

( Shenzhen- June 14, 2013 ) During June 13th-14<sup>th</sup> 2013, Zhang Wei, the director of Shandong Quhu Merchants Group, Hou Yong, the vice-director of Shandong Quhu Merchants Group, as well as the team of Quhu Industrial Zone makes up a standard investigation team to visit Anxin-China. Accordingly, Ji Bingpu, the marketing center manager of Anxin-China, and Huang Zhiwei, the vice general manager of the

Anxin-China marketing center, warmly received this investigation team, and then made a further discussion herein.

In the process of visiting, leaders from Anxin-China introduced the development history and core investment areas of Anxin-China to the team members. With considering the innovative technology achievements of Anxin-China in intelligent security and internet-of-things areas, the team became very interested in Anxin-China's core investment business. Then, two sides made a further discussion about the mutual cooperation in industrial zone investment, urban intelligent security protection area and etc.

Quhu is globally well-known for its academic Confucius. In recent years, the local municipal government has put more focus on promoting the progress of internet-of-things industry with the aim at the goal of developing high-level emerging industry as well as the strategy of accumulating advantageous corporations. As the forerunner in the domestic internet-of-things and intelligent security, Anxin-China always devotes itself to providing comprehensive solution and operating maintenance among multiple areas including industrial investment, internet-of-things, intelligent technology, industrial zone planning. However, this conversation of two sides signs that

their mutual development arrives at a brand new stage.
