

China WorkSafetyNews Special Edition: ANXIN-CHINA

December, 10th, 2011. Beijing City. *China WorkSafetyNews* released the Special Edition about ANXIN-CHINA, which specifically introduced ANXIN-CHINA of development history, product features, technological advantages and future development prospect. Especially ANXIN-CHINA made a great achievement in Ningxiangcounty through building the complete ISD system to promote the local security production environment; herein, it also reflected that ANXIN-CHINA kept focusing on technological innovation in the long run, with always insisting on the principle that “your safety is our business”. Moreover, ANXIN-CHINA undoubtedly has a bright future with the help and support from the governments at all levels.
