

## **ANXIN-CHINA Attended the Chongqing Industrial Security Production Exhibition**

December, 14th . Chongqing. In order to meet the requirements of China's MIIT, ANXIN-CHINA attended the Chongqing Industrial Security Production Exhibition on invitation. Herein, many relevant government departments at all levels were also invited to participate in this forum to talk about the deep combination between information technologies and industrial production, which indeed aimed at promoting the safety production of information construction through related effective measures.

In the whole exhibition, ANXIN-CHINA's representatives majorly introduced the ISD and IVAS systems, which received great appreciation from most participants and many high-level leaders from National MIIT and other security monitoring agencies in Chongqing expressed certainty towards them . It also brings ANXIN-CHINA into a new well-known stage among China's government department leaders and society elites, indicating a great future development for ISD and IVAS systems.
