

Leaders from PuYang Administration of Work Safety Visited Anxin-China' ISD Project Base in Yingcheng for Investigation and Study

The conference site.

(Yingcheng,Hubei-July 11th, 2013) Director Wong from Henan Puyang Administration of

Work Safety, and Director Liu from Puyang Finance Bureau, visited Anxin-China's ISD project base in Yingcheng for further investigation and study, to acknowledge the practical applications of Anxin-China's ISD system in the urban public security and safety production areas.

Specifically, this investigation team carefully listened to our personnel introducing the data about ISD system and demonstrating the system's normal operation. And then this team and Anxin-China's representatives held a research conference on the promotion of ISD system in Puyang City. Herein, Director Wong spoke highly of Anxin-China ISD system with playing a vital role in urban security protection and industrial safety production areas, and stated that the cooperation between Anxin-China and Puyang would come out soon.

Puyang City, located in the intersection site of Hebei, Henan and Shandong, is a petroleum-oriented industrial city in the northeast part of Henan Province. Accordingly, Anxin-China as the leading corporation in China's internet-of-things and smart security areas, will devote itself to promoting Puyang City to grow up into a smart, safe city in the new age.
