

International Smart Traffic EXPO Exhibition was Successfully Held

May 28th-30th, 2012. Shenzhen City. 2012 International Smart Traffic EXPO Exhibition was successfully held in Shenzhen Exhibition Center. ANXIN-CHINA attended this exhibition with ISD system. During the session, nearly 200 domestic and foreign smart traffic product manufacturers from more than 9 countries brought several thousand advanced smart traffic products, which renewed the audience's eyes with a visible&touchable traffic.

Herein, ANXIN-CHINA accompanied its subsidiary called Shenzhen Hawell Development Co. Ltd. to participate in this exhibition to present the ISD system and related hardware facility, which received much high reputation from a large number of clients, authorities and media. ANXIN-CHINA especially impressed participants with rather professional attitude. In order to follow the modern globalization and realize the scientific technology innovation, ANXIN-CHINA would like to pay a lot of efforts to make contribution to benefiting the security industry all over the world, though it has built a grant brand in China with the support and help from the government departments at all levels.
