
Leaders from Weishi County Administration of Work Safety
Visited Anxin-China Yingcheng ISD Project Base
for Investigation and Study

On the morning of March 16th, 2013-Yingcheng, Hubei. Several major Leaders from Weishi County Administration of Work Safety of Henan Province, including Director Li Jianhui and Secretary Le Jianwei, visited Anxin-China Yingcheng ISD Project Base for Investigation and Study. Accordingly, Wang Bo, the vice-president of Anxin-China Holdings Limited, welcomed them with warm reception.

Specifically, those important leaders focused on investigating and acknowledging the operation and construction conditions of the Yingcheng ISD emergency rescue platform, and also proposed a series of significant detailed requirements towards such a powerful platform concerning about the public's safety herein. During the investigation and study process, Liu Hongxing, the project director of Anxin-China, made a brief introduction about the construction experience and practical achievements of Yingcheng ISD system, while putting forward relevant available working solutions and construction steps towards the ISD project execution in Weishi County, Henan.

Finally, as the mission was completed, two sides, Anxin-China and Weishi County Administration of Work Safety, arrived at the primary cooperation intention about Weishi ISD system construction project.
