

Leaders from Hubei AWS Visited Anxin-China ISD Base in Yingcheng

(Yingcheng, Hubei-July,13th, 2013) Zha Yuanhong, the chief of technological information planning department of Hubei Administration of Work Safety, and other three deputy chiefs, respectively including Li Guoyu, Liu Zhihua and Huang Yang, accompanied other leaders from Hubei AWS, including Director Chen Shuhua, to visit Anxin-China ISD base in Yingcheng, Hubei for further investigation and study. Accordingly, Liu Hongxing, the project director of Anxin-China sincerely received this team.

Specifically, the team went to Yingcheng ISD command center, and watched the whole platform demonstrating operation by Anxin-China's personnel. In addition, herein, M. Liu Hongxing introduced the domestic marketing model about Anxin-China ISD system. Thus, Chief Zha Yuanhong spoke highly of the ISD construction as well as its outstanding, practical applications, and also stated that Anxin-China would be awarded as "Hubei Safety Production Platform Construction Corporation".

Anyway, this successful investigation means a great approval and support for Anxin-China, actually, which has made preparations for marketing plan in Hubei Province.
