

## **Hubei Inspection Team Visited the Rural Emergency Rescue Command Center of Safe Production in Yingcheng**

December 20<sup>th</sup>. Yingcheng, Hubei. Multiple senior leaders from Yingcheng County government accompanied the inspection team of Xiaogan City politicians, to visit the urban emergency rescue command center of safe production, which was actually the vital one in Hubei province. ANXIN-CHINA completed the whole project through hard work within only one month, presenting its strong ability and serious working principle. During the investigation period, the government personnel also spoke highly of the project because they believed that this system could help keeping the daily safety of the common people to a large extent. For the next strategic step, ANXIN-CHINA will cooperate with governmental departments of many levels to build smart cities, through setting up safety monitoring systems across the whole country.
