

## Leaders from Shaanxi & Gansu Administrations of Work Safety Visited Anxin-China's ISD Command Center in Yingcheng

Technical personnel introduced ISD system for the investigation group.

( Yingcheng,Hubei-Nov. 22nd, 2013 ) Mr. Zhang Yalong the chief of Technology Planning

Department of Shaanxi Administration of Work Safety, and Mr Zhao the director of emergency center of Gansu Administration of Work Safety visited Anxin-China' s ISD Emergency Rescue Command Center in Yingcheng for investigation and study. Accordingly, Mr. Liu Hongxing the project director of Anxin-China received the investigation group sincerely, and then both sides made a further discussion on the construction of ISD system.

During the conference, technical personnel from Anxin-China' s Yingcheng ISD Emergency Rescue Command Center introduced the details about ISD system, including functional modes, core technologies, application areas and successful cases, as well as Yingcheng city' s safety production conditions. And then, Mr. Zhang and Mr. Zhao spoke highly of Anxin-China' s ISD system because of its large role in urban safety protection and industrial safety production areas.

Finally, Mr. Zhang stated that Shaanxi City' s safety production conditions were imperfect, and thus it was required to introduce more intelligent facility and advanced technologies. Mr. Zhao invited Anxin-China to carry out an on-the-spot investigation to make preparations for mutual cooperation on the construction of ISD system. On the other side, Mr. Liu Hongxing the project director of Anxin-China promised that

Anxin-China would appoint professional personnel to visit Gansu soon for investigation and study, so as to turn on the first move of constructing and deploying ISD system in Gansu.
