

## School-enterprise Cooperation Strengthens China's Security Industry in the Signing Ceremony between Shenyang University of Chemical Technology and Anxin-China on March 12

The signing ceremony site

(Shenzhen -Mar. 12, 2013) Now, here came the spring with beautiful sunshine and mild atmosphere in Shenzhen, herein, Anxin-China Holdings Limited just meet two northern clients, both the party secretary M. Bai Wei and the School-operated director M. Yang Xueyin from Shenyang University of Chemical Technology. Specifically, both the board chairman Mr. Liu Zhongkui and the executive director M. Lin Supeng from Anxin-China, treated the above honored guests in the conference room with warm reception.

On the morning of this day, M. Bai et al visited the Shenzhen headquarter of Anxin-China in the company of Chairman Liu, and then made a sincere communication with young intelligent engineers in the R&D department locally. Besides, for them, M. Liu did not only make a brief introduction about the real-time analog demonstration of the latest popular high-technology iVAS system, but presented a detailed conditions about the technological analysis and market distribution of both ISD and iVAS.

Finally, two sides, Liu standing for Anxin-China and Mr. Bai in the name of Shenyang University of Chemical Technology, signed the industry-university-research cooperation agreement between Anxin-China Holdings Limited and Shenyang University of Chemical Technology.

Moreover, Mr. Bai Stated that, dating back to Dec. 2012, Shenyang University of Chemical Technology received the project proposal for industry-university-research cooperation between university and enterprise from Anxin-China Holdings Limited, and then confirmed the truth that this company' s cultural essence highly matched the school motto of Shenyang University of Chemical Technology while the cooperation model contained in the documents received .
