

The Chief of Xinjiang Kashgar Yinjisha County Public Security Bureau Visited Anxin-China for Investigation and Study

The conference site.

(Shenzhen-Nov.20th, 2013) The leader group from Xinjiang Kashgar Yinjisha County

Public Security Bureau, visited Anxin-China for investigation and study. Accordingly, Mr. Huang Zhiwei the deputy manager of marketing center received them sincerely, and both sides made a further discussion on the construction of safe city in Yنجisha County.

Anxin-China' s marketing personnel introduced the group' s development conditions and core technical edges, as well as the successful cases of ISS in the construction of safe city. Here, Mr. Wang the chief of Xinjiang Kashgar Yنجisha County Public Security Bureau spoke highly of the achievements Anxin-China attained in the construction of safe cities, and then asked a series of questions about the executive plans of safe city. Anyway, technical personnel answered each of them in detail.

Anxin-China' s iVAS system was specially valued by Director Wang, because of its technical features, application areas, operation models, and successful cases. At the same time, the technical personnel made a contrast between iVAS and traditional video surveillance system, to highlight the features and edges of iVAS. On the other side, Director Wang acknowledged that such an advanced technology could be applied into the construction of smart and safe cities, to promote those cities under a rather safe social environment, and thus Xinjiang Yنجisha County government would introduce Anxin-China' s advanced technologies as soon as possible to improve the local safety

construction.

Finally, the senior executives from Anxin-China confirmed that Anxin-China would spare no efforts to make contributions to the construction of safe city in Xinjiang Yinjisha County. 🌀
