

Anxin-China Participated in the 14th China's International Public Security Exhibition on Invitation

The exhibition site

(Shenzhen-Oct. 29th, 2013) The 14th China's International Public Security Exhibition made an opening in Shenzhen Exhibition Center on the morning.

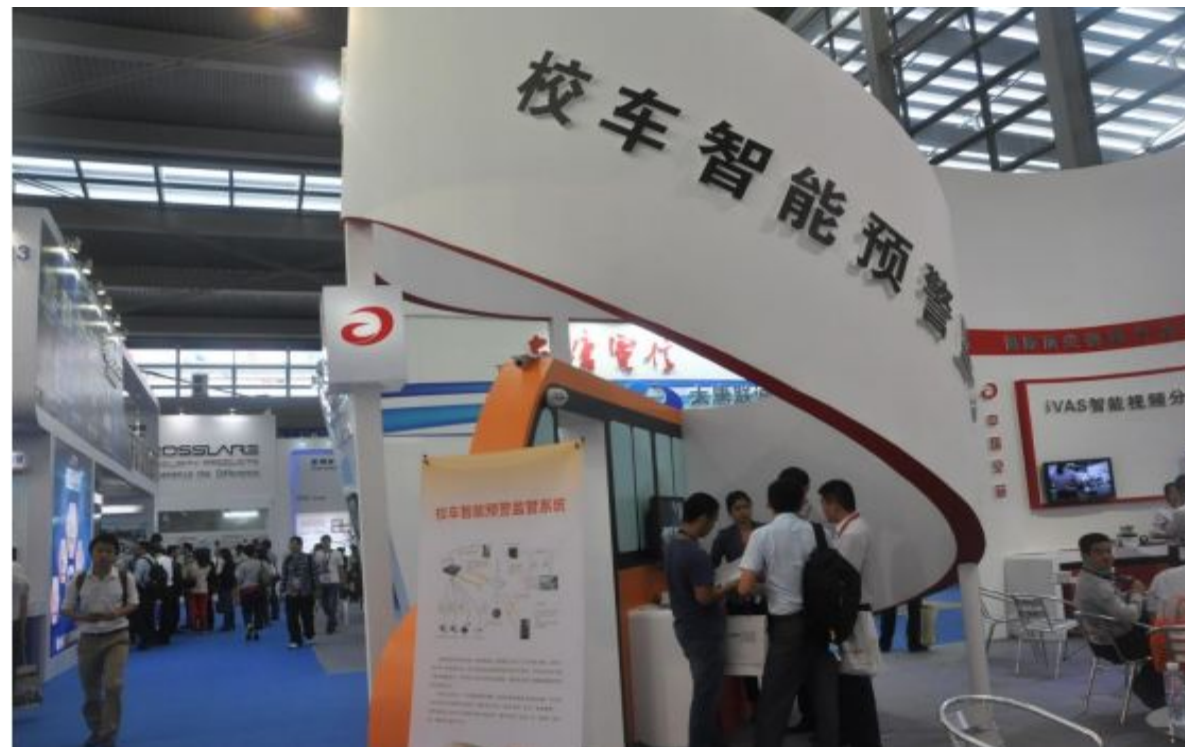

Anxin-China Holdings Limited, as the leading enterprise in the internet-of-things industry, took multiple system solutions and advanced technologies to participate in the CPSE with the booth number 6B07. Anxin-China majorly displayed the famous security systems and technologies including ISD, iVAS, intelligent school-bus precaution surveillance system, intelligent food & medicine security surveillance system and et al.

Clients visited Anxin-China's iVAS.

In Anxin-China's simple and magnificent exhibition stand, those outstanding system

solutions attracted lots of visitors and the exhibitors from home and abroad. Herein, all of them spoke highly of the international, advanced iVAS system after personnel' s introduction. Moreover, governmental leaders from Shaoxin, Zhejiang, and Handan, Hebei, presented concerns about Anxin-China' s advanced systems and technologies, and stated that they would apply ISD and intelligent school-bus precaution surveillance system into the local urban security management soon.

Technicians demonstrated the intelligent school-bus precaution surveillance system.

Moreover, several hundreds of visitors made a business discussion with Anxin-China after watching the on-the-spot demonstration. Finally, some clients showed their willingness to sign agreements with Anxin-China about purchasing the use rights of related system solutions and advanced technologies.

Such an exhibition, however, is estimated to last for four days from Oct. 29th to Nov.1st.

Anxin-China sincerely welcomes you to come to visit our exhibition stand.
