

Anxin-China Highlights Precaution is mostly

Required to Prevent Accidents

A bomb occurred in the PX project factory in Zhangzhou City, Fujian, consequently casualties unknown, cnr.cn reported on July, 30th.

Anyway, a sina-microblog user claimed, “there just happened a great explosion in ancient thunder peninsula, Zhangzhou city! Suddenly a bomb occurred, and then I immediately went outside to see what exactly happened.” Herein, he also attached four scene photos revealing the blazing petrochemical factory.

In fact, it's believed that, however, every sight at such news could bring readers with a heart broken feeling. Accordingly, Anxin-China with an magnificent vision that “ your safety is our business” can never ignore the responsibility of protecting our citizens. Anxin-China is China's most powerful intelligent pre-alerting solution provider, operation server and equipment provider, and spends many years developing safety production intelligent surveillance systems for all kinds of dangerous & chemical corporations. Anyway, the safety production intelligent surveillance systems can effectively detect the sources of major safety production accidents, while timely alerting related personnel to take measures to prevent occasional cases.

However, precaution is always the key access to safety production. Thus, Anxin-China eagerly takes its duty to implement its ongoing faith and mission! Anxin-China, your safety is our business!
