

## **Inspector Group from Chongqing AWS Visited Pengshui**

### **Anxin-China ISD Construction Base**

(Chongqing- May 9<sup>th</sup>, 2013.) The inspector Su Qiwu from Chongqing Administration of Work Safety led the key personnel of Chongqing Administration of Work Safety to visit Anxin-China ISD construction base located in Pengshui County, Chongqing City.

In the beginning, Anxin-China's personnel made a specific introduction about the construction conditions of ISD base, then further explained about the Anxin-China ISD's planned market promotion projects targeting at ISD system. Accordingly, the inspector group spoke highly of Anxin-China's fabulous system solutions and construction schemes.

Herein, Inspector Su Qiwu stated that the practical construction progress of ISD center was much better than the expected conditions, with the project's operating model in Chongqing city very worthy of large promotion. Moreover, the whole observation team proposed lots of effective opinions and suggestions towards the urban promotion of Anxin-China's ISD system platform, and that the local government departments would keep in sincere touch with we company through opening up the further technical discussion. Then, this team visited the corporations connected to the ISD platform for on-site investigation and study, so as to acknowledge all links of Anxin-China ISD construction fully and completely.

However, this group's investigation means an affirmative recognition and admiration towards Anxin-China ISD system, and makes a great contribution to Anxin-China's ISD system promotion projects in Chongqing City. We believe that within the great supports from Chongqing AWS, Anxin-China will achieve a series of successes in Chongqing City market promotion in the coming future! Also, the promotion of Anxin-China in China will succeed!
