

## Leaders from Zhaoqing Economy & Informatization Management Agency and Anxin-China Had a Conference on the “ Smart City Plan”

The conference site.

(Shenzhen-July, 12th, 2013) The investigating group from Zhaoqing Economy & Informatization Management Agency, which was made up of 20 members including

Huangjing the chief director and Huang Shaoming the chief secretary, visited Anxin-China for study. Accordingly, Wangbo the vice-chairman of Anxin-China board of directors, and Peng Xuanlai the chief manager of Marketing Center sincerely received this team. Thus, these two sides made a significant meeting on the development planning of smart Zhaoqing city.

Specifically, Wangbo introduced the great achievements Anxin-China had attained in smart city area, as well as its most outstanding solution for building intelligent safe cities. Anyway, it' s required to make full advantage of multiple urban information resources,

including newly-invented intelligent technology, internet-of-things as well as cloud computing and etc, to build a completely intelligent, safe city with digital and networked features, which were supported by the intelligent information industry; ultimately, it aimed to solve a series of problems in our real life, for instance, safety, traffic, environmental protection, food safety and other kinds of issues. Therefore, leaders from both sides made a conference on how to take effective measures to wipe out those dangerous potential risks.

Finally, Director Huang stated the urban development plans & strategies of Zhaoqing City, and especially explained the ideas proposed by the local government on developing smart city and promoting the industrial structure. Moreover, He spoke highly of Anxin-China' s solutions for intelligent safe city, which was proved to be effective in practical cases. Thus, both sides stated they had the similar strong will to execute the development plan and strategy of intelligent safe Zhaoqing City. 🌀
