

Leaders from Hubei Administration of Work Safety Visited Anxin-China's ISD Construction Project in Yingcheng

(Yingcheng, Hubei-May 15, 2013)With the accompaniment of Huang Yi as the director of Xiaogan Administration of Work Safety, Ruan Yankun as Yingcheng vice-mayor and et al, leaders from Hubei AWS, including Gao Jie as the director of emergency rescue and

statistics department, Zhu Xuezhong as the vice-director and Ye Xuenong as the consultant visited Anxin-China's ISD construction Project in Yingcheng, Hubei. Accordingly, the representatives from Anxin-China, including Wong Bo as the vice-chairman of Anxin-China, Liu Hongxing as the project director and et al, sincerely accepted the investigation group.

Actually, the investigation group made a field visit towards Yingcheng ISD command center, and carefully listened to Anxin-China's personnel introducing the major

conditions about ISD system. Furthermore, the ISD platform demonstration even attained those government leaders' united approval and appreciation. Then, a research conference concerning the promotion of ISD system in Hubei province was successfully held, herein, Director Gao Jie stated that the construction of ISD platform was very perfect, which made a much positive influence on the whole urban security protection and industrial safety production areas. He also confidently added that the local government will largely support the fast promotion of Anxin-China ISD system in Hubei.

However, those affirmations and supports from Hubei AWS make a great contribution to the full-scale promotion of Anxin-China system in Hubei. Also, it firmly states that Anxin-China has the perfect ability and confidence to finish the great project concerning the state' s safe & smart city plan. 🌀
