

Anxin-China's ISD Platform Corporate Symposium Successfully Held in Yingcheng, Hubei

(Yingcheng, Hubei-August 15th, 2013) Anxin-China cooperated with Yingcheng ISD command center to hold a high-risk corporation symposium, to speed up the cut-in operation work of security production platform in high-risk enterprise in Yingcheng, promote local safety surveillance capacity, and ensure the healthy safety production

condition. Accordingly, more than 60 participants present in the conference, respectively including municipal high-risk enterprise legal persons, general managers, responsible persons of non-coal mining enterprises and etc. It should be pointed out that Ruan Yankun, the deputy mayor of Yingcheng City, and Wu Hao, the director of Yingcheng governmental office, also attended this meeting,

Specifically, Chen Shuhua as the director of Yingcheng Administration of Work Safety host this conference, and Liu Hongxing as the project director of Anxin-China made a detailed introduction about the construction cases of ISD system in Yingcheng city, such

as its big role in safety production, fire control, environmental protection and other fields.

Moreover, the participated representatives made statements actively, and spoke highly of the contributions and achievements Anxin-China made to the safety surveillance system of local high-risk enterprises, including the updating service of hardware and software products. In addition, a series of issues about the platform injection, update & reform, service fee and etc, were discussed actively.

In the end, Ruan Yankun, the deputy mayor of Yingcheng City, recapped the meeting. Firstly, he represented the municipal government to thank Anxin-China for its great contributions to Yingcheng' s leading safety production surveillance and management platform, because it improved local emergency rescue capacity. At the same time, he highlighted that while the safety production is a long-term project, every participated enterprise should coordinate with the local Administration of Work Safety in ISD injection & update work to ensure local residents' life and financial properties safe. And thus, the economy of Yingcheng city can get into a stage of stable, harmonious development.
