

The Project Group of Anxin-China Went to Chibi City for Local ISD Project Investigation

(Chibi, Hubei- Mar 4th, 2013) The project group members of Anxin-China, including several senior Sales Director Liu Hongxing, Project Director Liu Hongxing, System Integration Director Xiang Ming and et al, went to Chibi City ISD Command Center for further investigation & study on the invitation of the Director Cheng Jianghai Director of Chibi City Administration of Work Safety; meanwhile, the ISD system construction project in Chibi city was also specifically discussed during the cooperation of both sides, Anxin-China and Chibi City Administration of Work Safety.

The project group of Anxin-China, in the company of Director Cheng Jianghai and Political Instructor Xu from Chibi City Administration of Work Safety, visited the local emergency rescue warehouse and exhibition hall. Then, according to the specific conditions in Chibi City, this team also proposed scientific and reasonable construction ideas about how to carry out the practical construction plan of ISD system in Chibi city. Herein, Director Cheng Jianghai spoke highly of the qualification and capabilities of Anxin-China as well as its outstanding ISD system, and also stated—the ISD located in Chibi City will largely improve the emergency rescue ability and management level; moreover, the next step is to put an emphasized study on the cooperated details of local ISD construction and operation so that the Chibi ISD project will be realized as soon as

possible.
