

## **Leaders from PuYang AWS Visited Anxin-China Yingcheng Project Base for Investigation and Study**

(Yingcheng, Hubei-July 11<sup>th</sup>, 2013) Director Wong from Henan Puyang Administration of Work Safety, and Director Liu from local finance Bureau, visited Anxin-China Yingcheng Project base for further investigation and study, to acknowledge the practical applications of Anxin-China's ISD system in the urban public security and safety production areas.

Specifically, this investigation team carefully listened to our personnel introducing the data information about ISD system as well as system's operating demonstration. Then, this team and Anxin-China's representatives held a research conference on the promotion of ISD system in Puyang City. Herein, Director Wong spoke highly of Anxin-China ISD system playing a vital role in urban security protection and industrial safety production areas, with stating that the cooperation between Anxin-China and Puyang would come out soon.

Puyang City, located in the crossing position of Hebei, Henan and Shandong, is petroleum-oriented industrial city in the northeast part of Henan Province. Accordingly, Anxin-China as the leading corporation in China's internet-of-things and smart security areas, will devote itself to promoting Puyang City to grow up into a smart, safe city in the present new age.
